

Woodgate Terence Woodgate

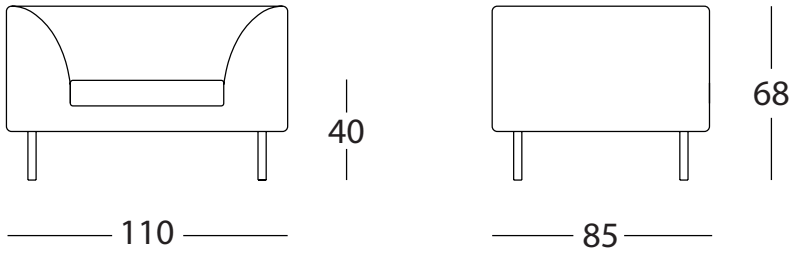

A 2023 reissue of the Woodgate sofa system, in original dimensions. A visually light and lean design, progressive in its conception and modest in style.

Conceived as a low-profile sofa system from the outset, the challenge of this design was to create the shape of the back to work as well as an arm. The arm itself is an elegant trimmed ellipse shape, while the legs are simple cylinders. A timeless design in the truest sense of the term.

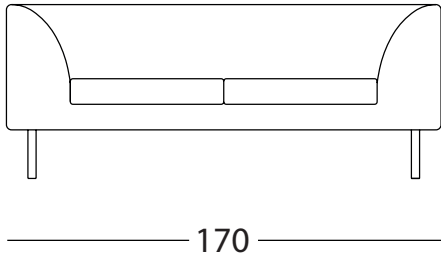

Made at SCP's specialist upholstery factory in Norfolk, England, using 100% natural and sustainable materials. With a frame made from FSC beech and softwood ply, with mild steel legs. Upholstered with wool interliner, hessian, Typar, Cocolok, needled wool, HD wool and natural latex. With feather cushions.
