

## Continuous Faudet-Harrison

Taking inspiration from upholstery designs of the 1920s, this deep-seated piece by Faudet-Harrison is notable for the use of continuous curves and elegant lines. A collection that comprises an armchair, two, three and four seat sofa, sectional sofa system, and three seat chaise - with the option of a fixed seat, individual cushions or a bench cushion.

The frame is made from solid beech and is upholstered with zig zag springs, Hessian, recycled recon foam, rubberised coconut fibre, Type Par and needled wool. The cushions are made from 100% feather. Available with either bronze plated or aged brass tubular steel legs.

Made in Norfolk.
