

Group Philippe Malouin

A collection of designs that use primary shapes in a concise way to form the base, back and seat of each piece. Designed to be both comfortable and tactile, and to work in an array of different settings, Group is a versatile design that was awarded the Design Guild Mark in 2018.

The seat and lumbar cushions are made from feather and foam. The cocktail and armchairs are available with either a fixed or swivel base. The formal sofa and armchair have a slightly higher seat and back, with a narrower seat than the standard size. The frame is made from solid beech and birch plywood.

Made in the UK.
